

COMMUNISM IS BACK?!

We have a bad news for you. Communism might come back and it will be far worse than before.

China gave this idea and Trump agreed.

Communism will be implemented in Russia, China, Usa, Brazil, past Yugoslavian, USSR and Warsaw pact countries. Teachers can also be worried since all of them will get fired and politicians will teach students in school, since there would be only one leader in Country.

Religions are also in danger. We are sorry if you live in communist countries and good luck surviving.
